

SENEGALESE STUDENTS OF MONTPELLIER SUPAGRO NETWORKS

Our association has been existing for 3 years. It was created in 2011 by a group of Senegalese alumni. This network was born under the collaboration of DEFIS and is currently in partnership with Sup Agro Alumni for the creation of diverse national Alumni networks.

Our main goals are:

☺ . To facilitate the transition of incoming students by developing activities to welcome, involve and support them during their student life at SupAgro

☺ . And to facilitate student's employability after their studies.

With three committees ,welcome,diaspora and Alumni, we do a lot of activities, in order to develop our exchange in Montpellier Supagro.

Currently, in collaboration with Montpellier Fondation, we are looking for funding and gift, to help senegalese and others nationalities, get scholarship to pursue their studies.
